

18/02/2025

Dear Association of Biomedical and Clinical Engineers of Georgia (ABCEG)

On behalf of the Founders' Council, I personally wanted to welcome your group to the Global Clinical Engineering Alliance (GCEA). As a new member of our Alliance, we hope to jointly progress further towards our shared vision. During this joint travel we will examine and advocate the optimal way to reach the desired destiny and achieve our mission as well.

We recognize your efforts in submitting your application and providing GCEA with the required information. Our Membership committee reviewed it and recommended to accept your submission for membership level as National and transnational biomedical societies, clinical engineering, clinical engineering technologists and technicians' societies (MO), Your membership will become effective once your fee payment is received by our treasurer.

The benefits of your membership include:

- ✓ Become a recognized partner of the global Clinical Engineering community.
- ✓ Strengthening the representation of the interests of the global Clinical Engineering community.
- ✓ Increase the collaboration amongst Clinical Engineering practitioners as well as between Clinical Engineering and other stake holders in the healthcare delivery system.
- ✓ Gain appreciation for the relationship between healthcare technology management and patient outcomes.
- ✓ Opportunity to participate in studies related to clinical engineering and patient outcomes.

✓ Participate in the development, application, and advocacy for an international professional credentialing program.

✓ Participate in the development and further adoption of clinical engineering undergraduate and graduate academic programs around the world. Global Clinical Engineering Alliance 8371 SE 57th St Mercer Island, WA 9040
www.globalcea.org 206 240-0622

✓ Opportunity to join conferences, and opinion generating focus groups developing professional knowledge, policies, and recommendations. ✓ Opportunity to participate with other national organizations in exchange of best practices, benchmarks comparison, and

✓ A prospect to promote your organization to the international community as part of “Country Focus” program to be featured monthly on GCEA website.

✓ A prospect to recommend experienced members of your organization for service as editors on the Global Clinical Engineering Journal
[Global Clinical Engineering Journal \(globalcea.org\)](http://GlobalClinicalEngineeringJournal(globalcea.org))

In addition, we encourage you to select and recommend volunteers from your organization to be considered for appointment on our committees and task forces as we build safer and better future for our patients and profession together.

Again, we are delighted you chose to become a member of GCEA, and on behalf of the Founders’ Council I send your organization a big warm welcome.

Respectfully

A handwritten signature in black ink that reads 'Yadin David'.

Yadin David
